

Sridhar R

Multi-Skilled Maintenance Engineer | Electrical & Electronics Technician | Building Services Engineer

Email: sridharrenganathan03@gmail.com

Mobile: +44 7407035087

Location: London, UK

Professional Profile

Multi-skilled Maintenance Engineer with 9+ years of hands-on experience in electrical installation, building services maintenance, electronics repair, AV systems, HVAC, BMS, networking, CCTV, UPS systems, and fault finding.

Experienced in commercial buildings, hotels, IT infrastructure projects, and technical service environments across the UK, Maldives, and India. Skilled in electrical panels, MV/LV systems, cable installation and termination, control systems, electronic circuit troubleshooting, PCB repair, and equipment commissioning.

Strong practical knowledge of planned preventative maintenance (PPM), reactive maintenance, electrical drawings, single-line diagrams (SLD), contractor coordination, health and safety compliance, and technical problem solving.

Technical Skills

Electrical & Building Services

- Electrical Installation & Maintenance
- MV & LV Distribution Systems
- Electrical Panels, DBs & Control Panels
- Panel Wiring, Dressing & Termination
- Cable Laying, Cable Management & Testing
- Electrical Drawings & Single-Line Diagrams (SLD)
- Fault Finding & Troubleshooting
- Planned Preventative Maintenance (PPM)
- Reactive Maintenance
- UPS Systems Installation & Maintenance
- Generator & Standby Power Systems
- Lighting, Power Distribution & Electrical Accessories

HVAC & Mechanical Systems

- HVAC Maintenance
- BMS Systems
- AHU & FCU Systems
- Boilers, Pumps and Calorifiers
- Mechanical Equipment Maintenance
- Basic Mechanical Fitting
- Hand and Power Tool Operation

Electronics & AV Systems

- PCB Fault Finding & Repair
- Electronic Circuit Troubleshooting
- Component Replacement & Soldering
- Audio Amplifier Repair
- LED TV Service & Repair
- Home Theatre System Installation
- Audio/Video System Assembly and Maintenance
- Electronic Equipment Testing

IT & Networking

- Structured Cabling (Cat5e/Cat6)
- Network Cable Termination
- Patch Panel Termination
- CCTV Installation & Maintenance
- Computer Assembly & Hardware Troubleshooting
- Basic Computer Applications
- MS Office

Professional Skills

- Contractor Management
- Project Coordination
- Health & Safety Compliance
- Risk Assessment
- Technical Reporting

- Emergency Response
 - Team Supervision
-

Professional Experience

Maintenance Engineer

Millennium Hotels & Resorts – Copthorne Tara Hotel London

July 2023 – Present | London, UK

- Carry out planned preventative maintenance (PPM) and reactive maintenance across hotel facilities.
 - Maintain electrical, electronic, mechanical, HVAC, BMS, and plumbing systems.
 - Perform fault finding and repair of electrical systems including lighting, sockets, power supplies, and distribution equipment.
 - Maintain MV/LV electrical systems, UPS systems, standby power systems, and critical equipment.
 - Carry out maintenance of boilers, pumps, calorifiers, AHU, ventilation, and plant room equipment.
 - Support BMS monitoring and troubleshooting of building systems.
 - Maintain CCTV systems, network equipment, AV systems, and communication equipment.
 - Perform guest room inspections, repairs, and electrical safety checks.
 - Respond to emergency breakdowns and urgent maintenance requests.
 - Supervise contractors and ensure safe completion of works.
 - Prepare maintenance reports, records, and technical documentation.
 - Raise purchase orders and coordinate with suppliers and contractors.
 - Follow health and safety procedures, risk assessments, and permit-to-work requirements.
-

Electrical & Electronics Technician

Emerald Resorts & Spa – Maldives

January 2023 – June 2023

- Installed, maintained, and repaired electrical and electronic equipment.
- Diagnosed electronic faults and performed PCB-level troubleshooting.
- Installed and tested CCTV surveillance systems.
- Installed and commissioned UPS systems.

- Completed structured network cabling projects including Cat5e/Cat6 installation and patch panel termination.
 - Repaired electronic circuits, audio equipment, amplifiers, and control boards.
 - Performed soldering, component replacement, and electronic servicing.
 - Maintained audio/video systems and resort entertainment equipment.
 - Carried out electrical testing, fault finding, and equipment maintenance.
 - Supported mechanical machinery maintenance and power system testing.
 - Assisted junior technicians with troubleshooting and repair activities.
-

Electrical Supervisor

Sakthika Powers – Coimbatore, India

June 2020 – December 2022

- Supervised electrical and networking installation projects for IT companies and commercial facilities.
 - Executed complete electrical installation works from installation through commissioning.
 - Installed electrical panels, distribution boards, and power distribution systems.
 - Performed panel wiring, cable dressing, termination, testing, and commissioning.
 - Installed and tested power and control cables.
 - Installed cable trays, conduits, trunking, switches, sockets, and electrical accessories.
 - Installed and commissioned UPS systems.
 - Completed structured network cabling projects including Cat5e/Cat6 installation and patch panel termination.
 - Installed and tested CCTV surveillance systems.
 - Read and executed electrical drawings, panel layouts, and single-line diagrams.
 - Performed insulation testing, continuity testing, troubleshooting, and fault finding.
 - Coordinated with engineers, contractors, and client representatives.
 - Supervised technicians and ensured safe project completion.
-

AV Technician / Electrician

Fairmont Island Resort Group – Maldives

December 2019 – March 2020

- Installed and maintained audio/video systems including LED TVs, amplifiers, speakers, and entertainment equipment.

- Performed electronics troubleshooting and repair activities.
 - Diagnosed faults in electronic circuits and power supply sections.
 - Carried out PCB repair, soldering, and component replacement.
 - Installed electrical systems and supported maintenance activities.
 - Tested and commissioned AV equipment.
-

Electrician

Filtheyo Island Resort – Maldives

August 2019 – October 2019

- Performed electrical installation, maintenance, and repair works.
 - Supported building electrical systems and equipment maintenance.
-

Electrician

Novelty Printers & Publishers Pvt Ltd – Maldives

August 2017 – June 2019

- Completed electrical installation and repair works in a commercial environment.
 - Maintained electrical equipment and power systems.
-

Electrician

Sri Durga Electrical Pvt Ltd – India

July 2014 – July 2017

- Completed domestic electrical wiring, installation, repair, and maintenance works.
 - Installed electrical accessories, distribution systems, and equipment.
 - Performed testing and troubleshooting.
-

Electronics Service & Computer Experience (India)

- Hands-on experience running electronics servicing activities including:
 - LED/LCD TV repair
 - Audio amplifier servicing
 - Home theatre system assembly
 - Car, bike, home and office audio system installation
 - Electronic circuit troubleshooting

- PCB repair and component replacement
 - Experience assembling and servicing desktop computers.
 - Basic computer hardware troubleshooting and software installation.
-

Mechanical Skills

- Formal training in mechanical fitting and workshop practices.
 - Hands-on experience with mechanical assembly, dismantling, and repair.
 - Practical experience in motorcycle engine servicing, repair, and reassembly.
 - Knowledge of mechanical components, hand tools, and maintenance practices.
-

Education

Diploma in Electrical and Electronics Technology (DEET)

Bharat Sevak Samaj (Government of India)

2015 – 2017

ITI Fitter (Mechanical Trade)

Government Industrial Training Institute, India

2013 – 2015
